

Reducing care packages

CPD accredited training

CPD Accreditation

As a new CPD member, we are delighted to offer you our first training course “Reducing care packages” which has been accredited by the CPD Certification Service, the largest and leading CPD training accreditation service worldwide.

Course overview

The course looks the benefits of single-handed care and reducing care packages to all stakeholders and considers different types of users whether their needs are simple or complex. It considers risk control, current legislation, and Musculoskeletal Disorders (MSD) and how using correct techniques and appropriate equipment can help reduce the number of carers needed across a range of everyday moving and handling tasks.

There is a particular focus on care at home, turning in bed and sit to stand. The course is theory based with practical demonstrations of techniques and equipment for different tasks.

Suitable for:

Healthcare professionals, including Occupational Therapists, Physiotherapists, Care Managers, Carers, Moving & Handling Advisors, Back Care Advisors.

Course agenda

The course is split into 4 modules:

1. Reducing care packages - an overview
2. Care at home
3. Turning in bed
4. Sit to stand

Course length

Approximately 2½ hours

Venue

We will host the course at a venue of your choice, we just ask for a minimum of 6 attendees. Maximum numbers will depend on the venue, but we suggest no more than 20.
