When being transported in a vehicle, it is R82's position that the wheelchair user transfer from the wheelchair into appropriate vehicle seating during transportation. Please note that at this time, the Department of Transportation has not officially approved any tie-down system for a user while in a wheelchair; therefore R82 cannot recommend a transit system.

The R82 Stingray mobility base was tested with a footrest and R82 transit anchors. The performance and safety of accessories and/or other seating options not tested by R82 is unknown, and no warranty or claim about their performance is or can be made.
