

**Wombat Living**

User information appropriate for use by people with visual, reading or cognitive disability	The latest version of all instructions are always available on the R82 website <a href="http://support.R82.org">support.R82.org</a> and can be printed in larger sizes
Information available in pictogram	The instructions are made as pictograms
Intended use and intended environment	<p>The Wombat Living is suitable for users needing a practical indoor activity chair e.g. children with GMFCS level 2-4, children who need extra help while sitting.</p> <p>The wide range of height adjustments makes it possible for the child to participate in activities at the floor level or at the table level.</p> <p>The tilt adjustments of both the seat and backrest together with a large modularized accessory program provide the possibility of placing a child in the posture which is most beneficial for the individual child.</p> <p>At configuration, it is possible to choose between two ways to operate tilt-in-space and three ways to operate the height adjustment. All versions are delivered with a multi-adjustable seat, back and footrest.</p> <p>The product is available with gas-spring or an electric motor.</p> <p>The Wombat Living comes in 3 sizes and is for indoor use only</p>

Maintenance instructions	<p>Maintenance of a medical device is wholly the responsibility of the owner of that device. Failure to maintain a device in accordance with the instructions may invalidate the device's warranty. Furthermore, failure to maintain a device may compromise the clinical condition or safety of users and/or their caregivers.</p>
