*Flip-Up Armrests and Hardware required.

²Anti-tip Tubes Required

The Rodeo Transit option includes four manufacturer installed red wheelchair transportation anchors. The Rodeo Transit model has been crash tested and conforms to RESNA WC19 standards. Anthropomorphic Test Device weights are RD10T, RD12T 66lbs/30kg, RD14T 100lbs/45kg, and RD16T 140lbs/64kg.

The Convaid Rodeo mobility base was tested with Rodeo seating module equipped with head support, H-Harness with padded Covers, 3-point restraint system, foot positioners, and 4 transit anchor brackets.

It is Convaid's position that the wheelchair user should be transferred from the wheelchair into appropriate vehicle seating whenever possible. Please note that at this time, the Department of Transportation has not officially approved any tie-down system for a user while in a wheelchair, therefore Convaid cannot recommend a transit system.

The WC19 standard is specially designed for the wheelchair to be secured in a forward facing configuration and not in any other direction. For more information on RESNA WC-19 and WC-20 standards please visit http://www.rercwts.pitt.edu/WC19.html.

Standard Shipping Rates: Ground \$71.95 • For expedited shipping rates, please call 1-844-876-6245 or email convaidsales.us@etac.com
