Etac Prio

A comfort wheelchair with unique innovations.
Etac Prio – dynamic comfort

By changing seat and back angles and adjusting the elevating leg supports, you can vary body position and pressure points, which is important for seating comfort. But the Etac Prio achieves more than this through its dynamic features.

When the back is reclined, the dynamic pelvic support releases the tension, giving the user a relaxed reclined position. The head support follows the same dynamic principle: It moves slightly backwards when raising the wheelchair user to an upright position, which gives the user freedom to move the head.

Thanks to the Comfort Tilt Lock, there is no risk in unintentionally leaving the user in too upright a position as the tilt lock automatically stops the tilt at a pre-set angle, ensuring a relaxed and safe position.
Innovations

**Dynamic Pelvic Support**
This unique function offers both stability in an upright position and comfort when reclined. This is how it works:

- When the back support is reclined, the tension in the pelvic strap is automatically released, letting the wheelchair user sink back.
- When the back support is brought to an upright position, the Dynamic Pelvic Support retightens the tension and gives a firm support.

**Comfort Tilt Lock**
When bringing the wheelchair user to an upright position, the Comfort Tilt Lock will stop the tilt in a comfortable, slightly reclined position. To adjust the tilt angle further upright, just press the tilt lever again and give a little push.

The Comfort Tilt Lock can be set at 0°, 4°, 8° or 12° tilt.

**Dynamic Head Support**
The Dynamic Head Support gives comfort in all positions. It moves slightly back when sitting upright, to avoid pushing the head forward. Super soft, it also allows the head to sink into the cushion.

- The smart head support attachment ensures the same height adjustment every time it is removed and reattached.

**More smart improvements**

**Foot brake**
Easy to manoeuvre for the attendant person, also equipped with a user brake lever. Available with 16" rear wheels.

**Platform foot support**
The platform foot support allows freedom to move the feet.

**Seat depth adjustment**
The seat depth is adjusted with the back support, which means that the foot support in relation to the seat is not affected.

**Tilt lever**
The tilt function is soft, controlled and safe. It is also possible for the attendant person to tilt standing beside the wheelchair.
Features and options

**Seat cushion**
Standard foam cushion. Cover: hygiene or plush.

**Seat cushion comfort**
Adjustable at rear with memory foam. Thigh troughs. Cover: hygiene or plush.

**Arm support**
Height and depth adjustable. Detachable.

**Back support cushion basic**
Padded, attached with zippers. Cover: hygiene or plush.

**Back support cushion comfort**
Padded, attached with zippers. Additional side and lumbar support. Cover: hygiene or plush.

**Back support upholstery standard**
With 5 adjustable Velcro straps and Dynamic Pelvic Support.

**Back support upholstery comfort**
With 5 adjustable Velcro straps and Dynamic Pelvic Support. Height adjustable pelvic support strap.

**Bow handle**
Height adjustable. Detachable.

**Dynamic Head Support soft, narrow**
Height adjustable, soft. Width: 31 cm. Cover: hygiene or plush.

**Dynamic Head Support soft, wide**
Height adjustable, soft width: 37 cm. Cover: hygiene or plush.

**Dynamic Head Support, soft comfort**
Height adjustable, soft. Wide with wings for more comfort. Width: 41 cm. Cover: hygiene or plush.

**Traditional head support**
Including brace angled at 45°, 90° or swan neck. Adjustable in height, depth and angle. Order attachment separately, see accessories. Cover: Plush.

**Foot brake**
Only in combination with 16” wheels. Equipped with user brake lever, shown below.

**Foot brake – user brake handle**
The foot brake above is equipped with a user brake handle.

**Brake**
Adjustable for all drive wheel sizes and positions.

**User brake with angled handle**
Provides a larger gripping surface. Available in black or red.

**User brake with extension handle**
The brake lever can be angled forward to facilitate sideway transfers.
Push handle
Height adjustable and detachable. With sliding stop.

Leg support, fixed angle
Swing-away and detachable. With knee pad.

Elevating leg support
Swing-away and detachable with flip-up calf support, adjustable in height and depth. Cover: hygiene.

Foot support large
Flip-up. Adjustable in height and angle.

Foot support
Flip-up. Adjustable in height and angle. Standard or long attachment tube.

Foot support extension
21 cm. Fits foot support above.

Anti-tippers
Adjustable in height. Folds in under the seat.

Heel strap
Adjustable in length.

Calf strap
Adjustable in length, detachable.

Platform foot support
Foldable and adjustable in height. Detachable, with calf strap.

Castor wheel
6” or 8”.

Rear wheel
16”, 20”, 22” or 24” rear wheel. Solid tyres. Quick release hub.

It is possible for the attendant person to tilt standing beside the wheelchair.
Etac Prio can be equipped with attendant brakes, making the handling easier for the person who is pushing, which in turn enhances the safety for both the user and the carer.

**Accessories**

- **Attendant brakes**
  With sliding stop. 100 mm between handle grip and brake lever.

- **Trunk support**

- **Tray**
  Transparent. Fits on arm support.

- **Attachment for traditional head support**
  Height-adjustable and removable. Available with straight or angled mounting.

- **Padding for calf strap**
  Provides a softer support. Available in 20 cm (7¾”), 30 cm (11¾”) and 40 cm (15¾”) lengths.

- **Spoke guards**
  In grey or yellow print.

- **Tool kit**
  Contains four ring spanners, three Allen keys, one socket.

- **Positioning belt**
  Two-point fixation. Several attachment points on the frame.

- **Widening kit**
  Moves each arm support 1,25 cm outwards.

Washing instructions

All covers are machine washable at 60° C.

The seat hygiene cover is machine washable at 95° C.
All hygiene covers are also wipeable with a wet cloth.

All covers are labeled with washing instructions.
40 years of standard-setting innovations
Swedish design and quality, with comfort and improvement in the front seat.

Since 1973 Etac has developed and manufactured products that improve the everyday life for people with disabilities. Since 1981 we have also been developing wheelchairs, with several innovations which have set new standards. Our focus on detailed improvement, together with robust design have become Etac’s distinguishing hallmark. Our track record in functional, innovative and comfortable products includes a number of Swedish and international design awards.
